Was attracted by the friendliness of the students and what attracted you to Bryan College as a student?

I am the executive director of the Chattanooga-Hamilton County Air Pollution Control Bureau. I began Hamilton County Air Pollution Control Bureau. I began

It was a joint decision that my wife and I made. We feel that God really led us to the Georgia and Tennessee area, but my parents were interested in returning to Bryan on my own initiative. I was attracted by the friendliness of the students and faculty and came to know and love people who definitely exhibited Christ in their lives. I liked what I saw and I wanted to live in an atmosphere where I could have that quality around me.

One of the things I truly appreciate about Bryan is that it is a Christian liberal arts college with a broad educational base. I am a graduate of the business administration program. I believe my business background prepared me well for the study of law. Business is one of the best preparations for law school. When I was in graduate school, I was able to observe by comparing myself to others that I had obtained a solid scholastic background. At Bryan I was with other students who gave me keen academic competition, the type it takes to be able to exist in law school today.

What did Bryan prepare you for your work at graduate school to study law?

I was interested in returning to Bryan for a year, I became interested in returning to Bryan on my own initiative. I was attracted by the friendliness of the students and faculty and came to know and love people who definitely exhibited Christ in their lives. I liked what I saw and I wanted to live in an atmosphere where I could have that quality around me.

How did Bryan prepare you for your work at graduate school to study law?

I believe that good fortune was God's mercy, because we were familiar with it through our association with Bryan. It was because of the place where I found a professional position that matched my desires. I was quite fortunate to find the position and I believe that good fortune was God's mercy, because we do love this area. We feel that God really led us to Chattanooga.

What is your legal responsibility in connection with your present position in Chattanooga?

Alumni Association President Wayne Crogg '74 responds to an interview with Executive Alumni Secretary Rebecca Peck '40.

What is your legal responsibility in connection with your present position in Chattanooga?

What challenge would you like to give Bryan alumni for the decade of the 80's?

We have set before ourselves some rather ambitious fund-raising goals which are intended to improve the physical status of the college and its academic programs. These dollars are vitally needed, but even more than that purpose behind the raising of those dollars. That purpose is to continue to maintain a school which teaches the basic doctrines of our sacred Scripture and trains young minds for service to our Lord in their chosen careers. Our challenge is to, first of all, make sure that Bryan maintains its historical identity and purpose and further to enable as many futures as possible to obtain the same dedicated principles and training that we received. I know from talking with former students that many of our old fond memories of our college experience at Bryan. We wholeheartedly support the school's current direction of controlled expansion. We do this with the firm conviction that our Lord would have us to do so. Indeed, we are counting on your support for the 80's.
TWENTY BRYAN ALUMNI WERE AMONG THE MORE THAN 80-missionary alumni from fifty missions that participated in Bryan's January 7-8 missions conference. She is trying to find answers to the questions and plans for the future.

They began on the staff at Samara Seminary in 1982 (missing only the first graduating class) and continued to serve a second year. In 1984, after two years in administrative work in Jos, Nigeria, they began this year to teach in a new seminar being developed to serve a church in Nigeria and an area different from Igbaja. Their children are developing independent programs—David is a senior at Cedarville College and planning for medical school; Kathy is a student at Bob Jones University. The three younger children are busy in school and church activities at home.

Tod and SHIRLEY (SMILEY) '57 KLINESMITH are serving in their 16th year at the Denver Christian Servicemen's Center. They enjoy frequent reunions with "alumni" of the Center when they come on visits, often bringing their families. The five Klinesmith children are beginning to scatter—Scott joined the staff of Inter-Varsity Christian Fellowship following this June wedding; Barbara graduated in pre-med studies at Biola in December; and Gayleen is a sophomore at Biola, taking one course in study of Europe. Still at home are Janell, a junior, who is pianist, soccer star, and Sunday school teacher, and Debbie, a freshman in high school.

RACHEL O'MEARA '58 spent two months between important and Thanksgiving breaks in Morocco and has been doing test flights on the new F-18 planes. Their oldest daughter, Karen, finished her student teaching at Wilhelm Air Force Base near Kansas City and is a certified teacher. Kim is a senior at Fontbonne and twin sister, Kathy, is a senior at Central Missouri State, where Kathy is a sophomore. Their month old child, Kent David, was born in May to bring the family register to five girls and eight boys.

Gary and ALICE (TOBELMANN) '59 FREDRICKS with their two sons continue to enjoy living in Texas while Gary attends Dallas Seminary. They have had meaningful contacts with several international students—one Muslim has met weekly for two years. Gary's Dispensational Bible student has continued with the course.
